SITE DUMPERS | IT-2HT/3T-1FT/3T-1ST/6T-1FT/6T-1ST/7T-1HI-VIZ/9T-1FT

Gross engine power: 16.1kW – 55kW | Payload: 1000 – 9000kg

THE INDUSTRY'S SAFEST DUMPER RANGE.

THE LATEST JCB SITE DUMPER RANGE IS A COMPREHENSIVE COLLECTION OF MACHINES DESIGNED TO OFFER INDUSTRY-LEADING LEVELS OF SAFETY. COMPLIANT WITH RULES AND REGULATIONS LIKE ISO 5006:2017 (EARTHMOVING MACHINES – OPERATOR'S FIELD OF VIEW), THESE MACHINES ARE PACKED WITH INNOVATIVE SAFETY FEATURES. AND PEACE OF MIND COMES AS STANDARD; THE ENTIRE RANGE IS BACKED BY JCB'S RENOWNED GLOBAL DEALER AND PARTS NETWORKS, AS WELL AS A TWO-YEAR WARRANTY.

Safer by design.

Safety features across the complete range include full width steer column protection, Hi-Viz retractable lap belts along with optional green lap belt LED beacon and Hi-Viz painted hand rails and steps. 6 tonne size models and above include speedometer, initial movement alarm, front camera (excl. 7T-1), lap belt logic linked to drive (incl. 1T-2). With options of the JCB SiTESAFE cab, white noise reverse alarm, side/rear cameras and object detection system.

EVEN THOUGH IT'S THE SMALLEST OF OUR SITE DUMPER RANGE, THE JCB IT-2 PACKS A BIG PUNCH. WITH NARROW WIDTH AND HIGH-TIP SKIP, THE IT-2 IS IDEAL FOR BUILDERS' MERCHANTS, LANDSCAPERS AND HOUSEBUILDERS.

1. High-tip design provides additional reach allowing easy spoil ejection into skips and trucks.

2. Low overall width (< 1m with narrow tyres) allows machine to access confined areas and fit through doorways.

3. Optional LiveLink telematics with machine location and geofencing for security.

4. Suitable for being towed, providing convenience and reduced transportation costs.

5. All-steel construction, built to withstand the rigours of rental use.

6. High quality, dependable Perkins 16.1kW Stage V/Tier 4 Final engine and Poclain 'Twin Lock' individual wheel motors.

7. Intuitive 'stop and go' pedal controls the hydrostatic drive for ease of use. A park brake button is introduced for extra safety.

8. Safety assured through sequenced two-stage drive inhibit system, with a high-visibility retractable lap belt as standard, giving additional comfort.

THE JCB 3T-I SITE DUMPER BRINGS YOU A SAFE AND INCREDIBLY USER-FRIENDLY PACKAGE. QUALITY ASSURED.

1. High quality recognised mechanical Kubota 27.4 kW engine, Dana transmission and axles.

2. A seat switch inhibits engine start for safety; with a high-visibility retractable lap belt as standard giving additional comfort.

3. Robust dual-pin centre joint design, allowing neat hose routing and reduced wear and tear.

4. 360° service access through tilting seat-base and rear bonnet, no requirement to remove panels in accessing the cooling pack.

5. Hydrostatic drive provides the ultimate in tractive effort and load-positioning precision.

6. Front or Swivel tipping skip options to suit the application.

7. Full width steer column shields the operator from falling material, no requirement for bolt-on guarding.

8. Optional front and rear LED work lights increasing visibility, road lighting kit also available.

THE JCB 6T-1 INTEGRATES JCB CORE COMPONENTRY THROUGHOUT FOR MAXIMISED EFFICIENCY AND PERFORMANCE. LOADED WITH SAFETY FEATURES TO PROTECT THE OPERATOR AND YOUR INVESTMENT.

1. Folding ROPS/FOPS Level II. JCB also offers a folding ROPS frame on machines over 6 tonne payload size. Use of the folding ROPS is site and risk assessment specific, JCB's manufacturer's recommendation is the fitment of FOPS.

2. Optional JCB SITESAFE cab ensures operator safety and comfort.

3. JCB EcoMAX 55kW engine does not require after-treatment lowering ownership costs.

4. Safety assured through sequenced two-stage drive inhibit system: the operator needs to be sat on the seat with lap belt engaged before driving.

5. Speedometer as standard allowing compliance with site speed restrictions.

6. Front or Swivel tipping skip options to suit the application.

7. A front camera as standard expands the operator's visibility to comply with ISO 5006:2017. Options include side/rear cameras and object detection system.

8. Optional flexible steps provide increased resistance to impact damage.

THE LARGEST OF OUR SITE DUMPERS, THE JCB 9T-I IS DESIGNED TO MOVE AS MUCH MATERIAL AS POSSIBLE, AS SAFELY AS POSSIBLE.

1. Skip made from 5 and 8mm steel plates, with reinforced upper section to provide long service life. Durable, all-steel construction made for the rental market.

2. Robust dual-pin centre joint design, allowing neat hose routing and reduced wear and tear.

3. JCB engine, transmission and axles work together in perfect harmony delivering maximum productivity.

4. Optional safety features include green LED seatbelt indicator beacon, white noise reverse alarm, and high-visibility painted steps and grab rails.

5. JCB SITESAFE cab is detachable for fleet flexibility and simple retrofit.

6. Safety assured through sequenced two-stage drive inhibit system: the operator needs to be sat on the seat with lap belt engaged before driving

7. An initial-movement alarm alerts pedestrians of the machines imminent movement.

8. Number plate and folding road lights located away from potential damage.

7T-1 Hi-Viz

BUILT WITH TOTAL SAFETY IN MIND, THE JCB 7T-1 HI-VIZ IS A MARKET FIRST AND WAS SPECIFICALLY DESIGNED TO ADDRESS INDUSTRY CONCERNS. THE RESULT IS A MACHINE WITH UNRIVALLED FRONT VISIBILITY, STABILITY, AND OPERATOR PROTECTION.

1. Tapered, simple skip interior geometry ensures smooth spoil ejection when tipping.

2. Comparable turning circle to a 6 tonne dumper, ensuring manoeuvrability and accurate load placement.

3. Widened wheel track and lengthened wheel base improve stability in all directions.

4. ROPS/FOPS Level II with JCB SiTESAFE protective cab as standard. Reinforced frame and glass keep the operator safe.

5. Class-leading visibility: operator has direct line of vision exceeding legislation. Forward visibility is 0.8m x 1m empty, 1.4m x 1m fully laden.

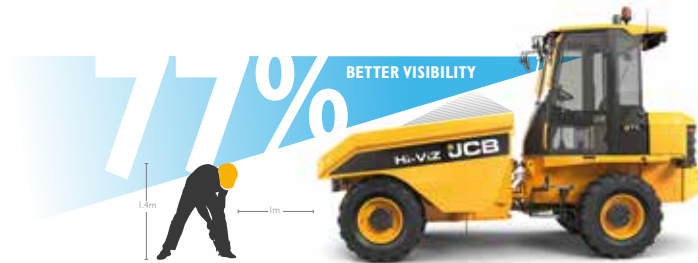

6. Large single engine service door gives 360° access to engine and cooling pack.

7. Excellent weight distribution ensures a smooth ride for optimum comfort.

8. Innovative front chassis design lowers payload centre of gravity by 16%. The unique lowered skip enabling fast, effective loading.

GREATER VISIBILITY

LOWER SKIP DESIGN • DIRECT LINE OF VISION @ 1m • 77% BETTER VISIBILITY

GREATER STABILITY

LOWER CENTRE OF GRAVITY • WIDER WHEEL TRACK • LONGER WHEELBASE

GREATER PROTECTION

REINFORCED FRAME • ROPS & FOPS LEVEL II CAB • IMPACT PROTECTIVE FRONT SCREEN

SITESAFE™ OPERATOR ENVIRONMENT

THE JCB SITESAFE™ OPERATOR ENVIRONMENT OFFERS THE ULTIMATE COMBINATION OF SAFETY AND OPERATOR COMFORT. IT'S AVAILABLE AS AN OPTION ON OUR 6 AND 9-TONNE SITE DUMPERS, AND IT'S A STANDARD FEATURE ON THE 7T-1 HI-VIZ.

1. Flat glass allows for quick and low-cost replacement.

2. Impact-protective front screen, toughened side and rear glass and reinforced frame for improved protection.

3. Deglazed canopy option retains front screen, ensuring the operator is protected.

4. Detachable for service access and transport. When fitted to a 6 or 7 tonne dumper, overall height remains under 3m.

5. ROPS/FOPS level II cab with integrated protection system. Designed and tested to withstand a front dump impact and side slewing impact from a 13 tonne excavator.*

6. Both doors have lockback and ajar stays to provide increased ventilation of the operator's environment and improve communication.

7. Equipped with heater as standard.

*JCB has tested the cab for front dumping impact damage when struck by the flat face of a fully loaded bucket of a 13 tonne excavator at full speed dump and also for side impact damage when struck by the flat side of the same bucket at full speed slew rotation. The testing concluded that neither the cab ROPS/FOPS structure nor front screen encroached into the operator's safe zone (DLV – Deflection Limiting Volume) as a result of the impacts.

LIVELINK, WORK SMARTER.

JCB LIVELINK IS AN INNOVATIVE SOFTWARE SYSTEM THAT LETS YOU MONITOR AND MANAGE YOUR MACHINES REMOTELY – ONLINE, BY EMAIL OR BY MOBILE PHONE.

Productivity and cost benefits –

Machine location information can improve fleet efficiency and you may even enjoy reduced insurance costs courtesy of the added security that LiveLink brings.

** Note: Please consult your local dealer for LiveLink availability*

Maintenance benefits – Accurate hours monitoring, maintenance history records, critical machine alerts and service alerts improve maintenance planning.

Security benefits – Real-time geofencing lets you set operating zones and curfew alerts that tell you when your machinery outside of pre-determined times. Location information helps you store machines safely.

VALUE ADDED.

JCB'S WORLDWIDE CUSTOMER SUPPORT IS FIRST CLASS. WHATEVER YOU NEED AND WHEREVER YOU ARE, WE'LL BE AVAILABLE QUICKLY AND EFFICIENTLY TO HELP MAKE SURE YOUR MACHINERY IS PERFORMING TO ITS FULL POTENTIAL.

1

1 Our Technical Support Service provides instant access to factory expertise, day or night, while our Finance and Insurance teams are always on hand to provide fast, flexible, competitive quotes.

JCB Premiercover offers comprehensive extended warranties and service agreements, as well as service-only or repair and maintenance contracts. Irrespective of what you opt for, our Maintenance teams around the world charge competitive labour rates, and offer non-obligation quotations as well as fast, efficient insurance repair work.

2

2 The global network of JCB Parts Centres is another model of efficiency; with 18 regional bases, we can deliver around 95% of all parts anywhere in the world within 24 hours. Our genuine JCB parts are designed to work in perfect harmony with your machine for optimum performance and productivity.
